been a finish.

WASHINGTON LETTER

(Special Correspondence.)

Accompanied by Senator Fulton of
Oregon, J. H. Brown of Portland, who
for many years has been engaged in
business in Shanghai and Tientsin,
China, had a talk with the president
about the boycott of American prod-
ucts by the Chinese guilds the other
day. During the interview the situa-
tion as to the business of Americans
in China was discussed fully. Mr.
Brown being able to throw some new
light on it.

He told the president that the boy-
cott of American goods was instigated by
a former American consul in China
who now is in the employ of the Chi-
nese government. Despite the boycott,
however, the business of American
firms in China was increasing year by
year, and he expressed the opinion
that it would be quite 20 percent greater
this year than it ever was before.
He pointed out that in 1903 the United
States had two lines of steamers op-
erating between American and Chinese
ports, and now there are eight lines,
all doing a tremendous business in
carrying exports from this country to
China.

Gold Heart For President.

A gold heart has been presented to
President Roosevelt on behalf of the
people of Colorado by Representative
Robert Hays of Denver. The gift,
which is of pure gold, was inclosed in
a case bearing the inscription:

"From the heart of the Rocky moun-
tains this symbol of pure Colorado
gold is sent by men, women and chil-
dren, rich and poor sharing alike, to
Theodore Roosevelt, president of the
United States, whose great heart
brought peace to the people of Japan
and Russia, Thanksgiving day, 1905,
A. D."

The money was raised by popular
subscription, many persons giving as
little as a penny. President Roosevelt
expressed great pleasure at the receipt
of the gift.

Ex-Speaker Kiefer's Seat.

Ex-Speaker Kiefer of Ohio did not
select his seat on the opening day of
congress. He did that several days be-
fore. He knew that by his memorial
courtesy of the house he would have
the first choice before the formal draw-
ing began.

Therefore he had only to make his
way to the seat the number of which
he had on a slip of paper in his hand.
He looked at desk after desk until he
found it. As he settled down he smiled
broadly and looked around the cham-
ber while prolonged cheers greeted him.
As member after member dropped into
seats around him they grasped him by
the hand and congratulated him on his
choice.

"This is the seat," he told his friends,
"that I had when I first came to con-
gress. And there," he continued, point-
ing to where Mr. Bowersock of Kan-
sas was seated across the aisle from
him, "is the seat that dear old Jim
Garfield had through all the years we
sat here together."

Dead Letter Sale.

At the annual dead letter office sale
of undeliverable merchandise more than
115,000 articles were sold under the
hammer to the highest bidder. The
catalogue offered for the sale contain-
ed the names of articles and pieces of
merchandise which have accumulated
in the office from July 1, 1904, to May
1, 1905, and includes 37,000 articles
found without wrappers and the con-
tents of 77,000 addressed parcels which
proved to be undeliverable and have
been awaiting reclamation.

Old Steel Plates.

The officials of the bureau of engrav-
ing and printing have finished classify-
ing the old steel plates, which will be
melted at the navy yard after Jan. 1.

The life of a plate from which green-
backs are printed averages from a
month to a year or more. Last year
more than 4,000 plates, weighing nine-
teen tons, were melted. Formerly the
molten metal was thrown away, but
during the last two years the authori-
ties at the navy yard have found vari-
ous uses for it.

Children in Quaint Garb.

Quarter looking children than the
two daughters of Senator Dubois of
Idaho cannot be seen outside the chry-
santhemum empire, for their mother has
garbed them in house robes she obtain-
ed when she was with Secretary Taft's
party that visited the orient. Mrs. Du-
bois, by the way, is an advocate of
dress reform. The gowns of the two
small Misses Dubois are of soft cot-
ton, and the children look like the tiny
pictures one sees on fans. The gowns
are in two pieces. The skirt is fold-
ed loosely at the waist line and is
held up by suspenders. The crudeness
of this device is concealed effectively
by the blouse, which is embroidered
artistically.

The Aquarium.

The United States fish commission's
museum has been undergoing extensive
changes. The handsome aquarium is
being completely rebuilt. That part of
the aquarium known as the grotto is
being fitted up with new and hand-
some tanks used by the commission for
exhibition purposes at the St. Louis ex-
position. These will take the place of
the old ones.

The commission has ordered for the
new aquarium a fine lot of specimens
of fresh water food fishes, such as
trout, salmon, grayling, etc., the ob-
ject being to do away with the salt water
specimens, which are difficult and trou-
blesome to keep at this distance from
the sea. There will also be a handsome
display of fishes from the great lakes,
some of which, it is said, have never
been exhibited before in the commis-
sion's aquarium. In addition to these
the commission will also place in the
museum proper some Pacific coast
specimens, which it has secured from
the Portland exposition.

CARL SCHOFIELD.

WOMAN AND FASHION

A Fashionable Design.

An unusually attractive waist is il-
lustrated here, developed in white taf-
feta, with a decoration of black and
white checked taffeta and loops of

ATTRACTIVE WAIST.

black soutache braid. The blouses very
slightly into a girlish black messan-
line. French damask, silk pongee or
any of the washable winter fabrics are
desirable for the development of this
waist. Size 36 will require six yards
of twenty inch silk.

Early Winter Fashions.

For the morning and general service
the short strictly tailored made costumes
in serge or rough cloth are the smart-
est, but for afternoon quite a different
fashion of gown is demanded. Trim-
mings of lace, braid and fur, with fac-
ings of silk or satin, are demanded,
and, in fact, all the details of the cos-
tume are on quite a different scale.

The Popular Bolero.

The very short little bolero which is
the latest expression of that garment
and is a natural development of the
empire style has been so per-
sistently forced upon the fashion
forward, offers the designer a chance for
clever work and much elaboration. One
sees the bolero made in everything
from lace to fur.

New Ribbon.

Light colored ribbons, such as
flat bands to dress up the ribbon em-
broidery is much in evidence, and, by
the way, there are on the ribbon coun-
ters many novelties in ribbon with
draw threads, one of which is a
one straight ribbon with a draw
thread full of life.

Light Colors.

Light colors, such as
pinks, lavenders, greens (pretty soft olives),
blue, etc. But the several grays are
perhaps the most popular.

Cloth With Velvet.

Such a blouse suit as this one is al-
ways serviceable and attractive for
simple occasions and can be rendered
warm and comfortable by the wearing
of the fashionable furs. In the illus-
tration it is made of ladies' cloth with
trimmings of velvet and gold buttons,
the color being a dark hunter's green,
but the model is an adaptable one and
is available for indoor wear through-
out the entire season. When used in

BOUSE SUIT.

this way it is appropriate for the light-
er weight wool materials and for the
simple silks that are much in vogue,
while the trimming can be one of
many things. Velvet on wool is great-
ly used this season, but so also are
embroideries of all sorts, laces and the
like. The blouse is a becoming and
attractive one, finished with a little
stole collar that is quite novel as well
as smart, and is closed invisibly at the
front, the two hems coming together
and allowing of effective trimming of
simple buttons. The skirt is five gored
and simply tucked to yoke depth, fall-
ing in becoming folds below the stitch-
ings.

PEOPLE OF THE DAY

The Army's Chief of Staff.

With his recent departure from
Washington for a visit to southern Cal-
ifornia, Lieutenant General Chaffee
practically terminated, it is believed,
his active connection with the army.
It is not expected that he will resume
the actual duties of the office of chief
of staff.

Major General John C. Bates, assist-
ant chief of staff, will act as chief of
staff during the absence of General
Chaffee and on the retirement of the
latter will be regularly assigned to
duty as chief of staff, with the rank of
lieutenant general.

It is understood that General Chaffee
will retire some time during the win-
ter, probably in January, and in any
event prior to the time when he would
be retired by law. If General Chaffee
should remain as chief of staff until
April 14 next, when he will be sixty.

MAJOR GENERAL JOHN C. BATES.

four years old, he would deprive both
General Corbin and General Bates of
the opportunity to serve any except the
shortest terms. General Bates will
reach the age limit on Aug. 26, 1906,
but will probably retire before that
date to make way for General Corbin,
now in command in the Philippines,
who will have to retire under the law
next September.

General John C. Bates is a native of
Missouri, entered the army as a lieuten-
ant of the Eleventh United States
Infantry in 1861 and was on the staff
of General Meade from the battle of
Gettysburg to the close of the war. He
was made a brigadier general of the
regular army in February, 1901, and
major general in 1902.

An Iowa Congressman.

William Peters Hepburn ("Colonel
Pete," as he is familiarly known) will
fifty-ninth congress during his pres-
ent session. As chairman of the house
committee of interstate and foreign
commerce he will have the steering of
legislation to regulate railroad rates, a
matter which promises to promote the
liveliest kind of discussion among the
nation's lawmakers.

Colonel Hepburn is an old hand at
the game, however, and is not likely to
get flustered, no matter how delicate
and involved the situation may be-
come. Eighteen years' experience as a
national legislator have made him wise
to the ways of congress, and what he
does not know about house procedure
is hardly worth the telling.

A strong partisan and skilled in de-
bate, Colonel Pete is ever ready to
maintain his position with whoever
wishes to cross swords. He signalled
his appearance in the present congress
by having a set-to with Bourke Cock-
ran over the canal emergency appropria-
tion. The Democrats claim that
Colonel Pete came out second best,
but if so it was a rare occurrence. Fond
of a good story and able to hold his
end up in this line, the veteran
from Iowa is one of the popular men
in congress.

Colonel Hepburn won his title in the
civil war, where he successfully serv-

WILLIAM P. HEPBURN.

ed as captain, major and lieutenant
colonel in the Second Iowa cavalry.
Born in Ohio in 1833, he was taken to
Iowa (then a territory) in 1841. He got
his education in the schools of the
territory and in a printing office.

Colonel Pete early took an interest in
political affairs and went as a dele-
gate from Iowa to the convention that
nominated Abraham Lincoln. He was
also a delegate to the conventions of
1888 and 1894 and has several times
been a presidential elector. In 1889 he
was appointed solicitor of the United
States treasury by President Harrison
and served throughout the latter's ad-
ministration.

Colonel Hepburn has served nine
terms in congress as a representative
of the Eighth Iowa district and is now
beginning his tenth term. He was first
elected to the forty-seventh.

FRIDAY, DECEMBER 22.

NO PAPER NEXT WEEK.

As we have already issued four papers this month, and as next week is Xmas week, we have decided not to issue any paper next week, but THE NEWS will come to all who have complied with our terms Friday, January 5th, 1906, brighter, newer and better than ever. Our new story will begin in the first issue of next year and we hope all our subscribers will begin with the new story. We know you will like it.

A PERSONAL MATTER.

We have discovered that it takes money to run a newspaper. We presume that it is unnecessary to that we have just come out of a political campaign, that we need money. To send a personal statement to all of our subscribers would be quite expensive, we therefore ask each one of our subscribers who knows he is in arrears to send us at least one dollar to apply on subscription. This is a small amount to each one, but would amount to considerable in the aggregate to us.

We are going to begin a new story and make other improvements on our paper about January 1st, which is almost here. We are going to make up a new subscription book at that time and all who are in arrears will be dropped unless the above request is complied with.

You ought to take advantage of our combination offer, described on page 1. Four papers a whole year for \$1.35. Can you afford to do without your county paper?

YALLER BRITCHES. IN MEMORIAM.

John Abner, Jr., died December 12th, at his home near Primrose, Lee county, from the effects of wounds received from a pistol in the hands of Harrison Lucas, who was also shot by John Abner. A mystery surrounds this tragedy, as the two combatants were neighbors and seemingly good friends. John Abner, while he professed no religion until the latter hours of his life, his conduct and charity extended for those in need. His life is a fitting example for his neighbors. He gave testimony in his last hours that he had made peace with his God, and wished and prayed that his slayer might recover from the wounds received at his hands. He was 38 years of age, was a man of affairs, a thrifty farmer and a good business man. He was brave, honest and truthful, as a husband he was affectionate and true, as a father he was kind and indulgent, as a neighbor he was friendly and obliging. He leaves a wife and five small children, father, four sisters and three brothers. His family was well provided for. J. E. J.

NEW SHORT STORIES

Russell Sage as a Client.

Russell Sage has a horror of lawsuits. A clerk of Mr. Sage's said the other day:

"I sought out the chief one morning in his office. 'You remember, sir,' I said, 'my complaint against my wife's uncle?'"

"Yes," he answered.

"Well," said I, "the man is obdurate, and I think of bringing suit against him. What do you advise?"

"Mr. Sage, always interested in the welfare of his employees, was silent a moment, then he said:

"Listen. When I was a clerk in Troy I had a case against a man that

"I rose and took up my hat. I thanked the lawyer and told him that I wouldn't bring suit after all. And then I explained that it was my opponent's side and not my own which I had laid before him. Before bringing a lawsuit," Mr. Sage concluded, "it is a good plan first to lay your opponent's case before your lawyer as if it was your own."—Washington Post.

The Trick Which Always Fooled a Mischievous Chimpanzee.
A few years ago in the London zoo Joe, a chimpanzee, was lodged and boarded in a cage. One day he let out for a walk in the garden. He was very mischievous and was always leaping around the cage and pulling at the bars of his mates. When it was time to shut him up again in his cage Joe would just as regularly rebel and refuse to come to his keeper. As he was too nimble to be caught and too crafty to be alarmed by dainties, his keeper had to use strategy. Near an end of the monkey house was a large dark hole out of which came a gas pipe. Having opened the door of Joe's compartment, the keeper would peep into the dark hole, and then appear as if he saw something intensely interesting. Joe would descend from his perch and, like him, earnestly gaze into the hole. Then, with a gesture of fear, the keeper would run into Joe's cage, followed by the chimpanzee, clattering with fright, and the door would be shut. Singular as it may seem, though this trick was repeated daily for months, Joe never learned it. Every morning he was captured by the same ruse, and yet experience never taught him wisdom.

The Deepest Lake.
In the Cascade mountains, about seventy-five miles northeast of Jackson, Ore., is Great Sunken Lake, the deepest lake in the world. It is said to average 2,000 feet down to the water on all its sides. The depth of the water is unknown, and its surface is as smooth and unruined as a mammoth sheet of glass, it being so far below the mountain rim as to be unaffected by the strongest winds. It is about fifteen miles in length and four and one-half miles wide.

Land Surveying.
The art of land surveying owes its origin to the fact that the Egyptians were unable to keep permanent monuments on land which was overflowed every year by the Nile. Under such circumstances it became necessary to have some means of re-identifying the various pieces of land. The instruments and mathematical modifications were used by the Egyptians for land surveying.

Table Saving Mats.
Asbestos mats in all shapes and sizes covered with white cotton flannel may be had from any of the shops, and are of great help to the careful housewife in protecting her fine table from spots due to hot dishes. These mats may be covered with dollies made on purpose to fit them, and in this way they do not soil the appearance of a prettily set table in the slightest. Another good way to keep the heat of the dishes from striking in is to cover the table first with a square of white oilcloth, then with a padded and quilted silence cloth underneath the table spread. The oilcloth is excellent for keeping out the heat and protecting the table in every way.

Higher prices at Benning.
The Washington Jockey club at the Benning track increased its general admission rate from \$1.50 to \$2. Women must pay a dollar instead of 50 cents in the future. The innovation was met with a storm of protest from the racing enthusiasts.

Jabez White.
Jabez White, the English lightweight, has postponed his trip to America, as he has two fights on in England. He meets Fred Buckland in London in a few weeks. His second bout will be at Birmingham with Bob Russell.

In Candy Land.
In Candy Land the little folks wear candy buttons on their coats. And candy buttons on their shoes. Indeed, on everything they use.

What if the candy buttons break? The pieces that the children take, and very calmly down they sit and eat up every single bit.

In Candy Land the girls and boys play every day with candy toys. They always eat from candy plates. And do their sums on candy slates.

—St. Nicholas.

Depositions Not Damaging to the "Hogbacks."

The contestants began the taking of their depositions last Monday and have been more or less engaged in the business during the week, but we are informed they have not as yet brought out very much damaging testimony. The plaintiff's witnesses on more than one occasion made out a good case for the defendants. Unless the contestants have something better to offer hereafter we think their chances to overthrow the recent election are very slim.

Marriage Licenses.
The following marriage licenses have been issued during the past week:

EDWIN T. PRESTON.

The Christmas exercises at the Presbyterian church will be held on Sunday afternoon at 3:30 o'clock, instead of Saturday afternoon. The time has been changed on account of the fact that the Christmas exercises at one of the other churches of the town are to be held on Saturday afternoon. An interesting program has been arranged and a large crowd is expected.

Mose Feltner on Trial at Irvine.
The case against Moses Feltner, charged with the murder of Jesse Fields, came up for trial at Irvine on last Tuesday. The jury was made up on Wednesday and Robert Fields, brother of Jesse, was the first witness introduced. This case was tried here in 1901 and Feltner was given seven years in the penitentiary, but the case was appealed by the late J. B. Marcum to the Court of Appeals and reversed. The case was taken to Irvine on a change of venue. Several witnesses from this county are in attendance.

Clarence Hadden has the nicest line of fruits and candies in town.

CHRISTMAS.

EDITOR NEW:
How should we celebrate Christmas, is a question not easily answered if attempted to be answered right. Should it be in mirth and merriment and joyous festivities, or should it be in earnest thanksgiving for the great matchless life that was given the world nineteen hundred years ago? Today we look back through the ages and revelations, through the graces and miracles, to the birth and coming of Christ, the event to which the ancients from the days of Abraham pointed with varied types and shadows.

It was symbolized to the ancient world by the offering of blood and ashes of animals, and the firstlings of the flocks; in the bounding goat that fled to the forest taking away the sins of men, and in the substitute offering for Isaac, when the thicket was made to catch the horns of the ram, and when the hand of the father of the faithful was stayed by the voice from heaven. Strong, unwavering faith, a faith tried as by fire, a faith that could look through types and see cradled in a manger, crucified and risen, the Redeemer of fallen man; strong faith that could lead from Egypt.

ian bondage, a cloud by day and a pillar of fire by night, o'er the rocks of that mystic sea to where the song of deliverance was sung; strong faith that could lead through the vicissitudes of the wilderness pilgrimage until the chosen band reached Canaan's side of Jordan's rolling stream.
Today, the world how changed, The angels sang the delightful song to the shepherds on the hills of Chaldea, and the wise men marched to the pilotry of the singing stars to where the Savior of man was cradled in a manger and where their faith was lost in sight.
Let us doubt not today in this age of certainty and truth; let us look to the life we today celebrate and to the teachings left with man, and attempt at least to conform our lives to the order and teachings of His works. K.

HUMOR OF THE HOUR

The End in View.
Ex-Senator Lake Jones of Wayne county, O., who is known all over Ohio as the "round, pig, statesman," from his passionate love of fox hunting, was talking with a party of old time friends in the lobby of a Columbus hotel recently.

"I have an aunt," said Jones, "who has most pronounced ideas of right and wrong and a rather exaggerated sense of justice. Nearly thirty years ago, she bought a piece of property from her brother in St. Louis.

"In a dozen years the property had quadrupled in value. Today it is worth ten or fifteen times what she paid for it. As the value advanced her worry increased. Finally she mailed him a check for \$15,000, explaining that she felt that she had not paid him what the property was really worth.

"He promptly returned it, saying she had paid him all he asked for it and all it was worth at the time of the sale. But she wouldn't take no for an answer and sent it back to him.

"Now, don't you know," laughed Jones, "that check has been passing back and forth through the mails between our families for the past fifteen years."

"Did it ever fall into your hands, Lake?" asked Major Robert Eddy, Jones' friend of a lifetime, smiling meaningly.

"No," admitted Jones half sadly, "not yet."—Philadelphia Ledger.

The First Requisite of Beauty.
The first requisite of beauty is a clear complexion. Orino Laxative Fruit Syrup clears a sallow blotched complexion as it stimulates the liver and bowels, and the eyes become bright and clear. You owe it to your friends to take it if your complexion is bad. Orino Laxative Fruit Syrup does not nauseate or gripe and is very pleasant to take. Refuse substitutes. Jackson Drug Co.

The Senator's Acomen.
"I have always noticed," remarked the man who comments on things, "that the man who eats the most is not always the fattest."

"True," replied Senator Badger, "and I have also noticed that the man who talks the most is not always the wisest."—Milwaukee Sentinel.

Huge Task.
It was a huge task to undertake the cure of such a bad case of kidney disease as that of C. F. Collier, of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone I could not sit on a chair without a cushion, and suffered from dreadful backache, headache and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to anyone with weak kidneys, liver or stomach. Guaranteed by Jackson Drug Co. Price 50c."

Moreless.
"What do you think of that young author?"

"Before reading his book," answered Miss Cayenne, "I thought he must be more intelligent than he looks. After reading it I have concluded that he looks more intelligent than he is."—Washington Star.

A Certain Cure For Croup.
When a child shows symptoms of croup there is no time to experiment with new remedies, no matter how highly they may be recommended. There is one preparation that can always be depended upon. It has been in use for many years and has never been known to fail. viz: Chamberlain's Cough Remedy. Mr. M. F. Compton, of Market, Texas, says of it: "I have used Chamberlain's Cough Remedy in severe cases of croup with my children, and can truthfully say it always gives prompt relief." For sale by Jackson Drug Co.

Same as Ever.

Any—What did your mother say when you told her that I was sorry that I'd made an idiot of myself last night?

Grace—Oh, she said she noticed nothing unusual.

The Key That Unlocks The Door to Long Living.
The men of eighty-five and ninety years of age are not the rotund well fed, but thin, spare men who live on a slender diet. Be as careful as he will, however, a man past middle age, will occasionally eat too much, or of some article of food not suited to his constitution, and will need a dose of Chamberlain's Stomach and Liver Tablets to cleanse and invigorate his stomach and regulate his liver and bowels. When this is done there is no reason why the average man should not live to old age. For sale by Jackson Drug Co.

Not on the Platform.
"Gents," said the trolley car conductor, "you must stand on the back platform. Yer breakin' the rules."

"Some of 'em ain't," piped up the little man. "They're standin' on my feet."—Catholic Standard and Times.

The Sporting World

Corbett and Hanlon.
Young Corbett, the ex-champion featherweight, is now in shape once more, and he is soon to fight Eddie Hanlon.

Hanlon defeated Corbett in their last fight, but the Doctor believes that he can retrieve his lost honor.

Corbett has been working hard of late to regain his old time speed. Just now he is a trifle fat, but this fault will soon be remedied.

Failed.
All efforts have failed to find a better remedy for coughs, colds and lung troubles than Foley's Honey and Tar. It stops the coughs, heals the lungs and prevents serious results from cold. J. N. Patterson, Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar, and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Jackson Drug Co.

Scores Football Ticket Charges.
Faculty representatives of the "Big Nine" athletic conference held a meeting recently in Chicago and adopted the following resolution, introduced by Professor H. F. Barton of Illinois:

"The high price of admission charged to intercollegiate games is a hardship on the student, and the large sums of money received from these games have a tendency to unduly magnify the athletic side of student life. The conference is of the opinion that no more than 50 cents should be charged for any seat, whether reserved or not, and that a less charge be made when possible."

Professor Barton said that the enormous receipts have made athletics become more important than the colleges.

The question of eligibility of players was taken up, and a committee was appointed to pass upon the question of what constitutes a college. Boone, the Chicago university halfback, played some time at Hinsdale, which he and Coach Stagg assert is not a college in the common acceptance of the word.

A rule was adopted requiring each student taking part in athletics to have sufficient credit marks to admit him to the college of literature and arts and in addition a certificate showing the studies he is taking and his record in each study. This was done by professional school candidates.

Brutality was discussed, but no action was taken, that phase being referred to the rules committee.

La Grippe and Pneumonia.
Pneumonia often follows la grippe, but never follows the use of Foley's Honey and Tar. It cures la grippe coughs and prevents pneumonia and consumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mr. G. Vacher, of 157 Osgood St., Chicago, writes: "My wife had a severe case of la grippe three years ago, and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50 cent bottle cured her cough entirely. Refuse substitutes. Jackson Drug Co."

Defies Auto Law.
There is at least one motorist in this country who has the courage of his convictions. That is Henry T. Gage, former governor of California. The ex-governor lives in Los Angeles and owns a big automobile, which he refuses to disfigure by signs. The state law requires that a license number be attached to the rear of every motor car given in the state, but the ex-governor is none, although he drives his car constantly. He holds that the law is unconstitutional and stands ready to fight to the last ditch whenever he is arrested for disobedience. Thus far he has not been molested.

An Emergency Medicine.
For sprains, bruises, burns, scalds and similar injuries, there is nothing so good as Chamberlain's Pain Balm. It soothes the wound and not only gives instant relief from pain, but causes the parts to heal in about one-third the time required by the usual treatment. Sold by Jackson Drug Co.

An Auto Need.
As automobiles have become too fast for various tracks and as the roads cannot be secured very often for racing, the demand has become general for a proving ground of some sort where the latest models of the automobile factories can be properly tested before being offered to the public. It is admitted that only by driving cars at high speed can their defects be brought out and remedied, and some course of ten or fifteen miles in length is required for the work.
